Marie's Corner  
steers a course for  
innovation ...

...and enlarges its  
offer with *renting*

## In the offer there is another offer

Marie's Corner production absolutely needs to be attributed to the storytelling and the tailor-made requests of the customer.

Marie's Corner breaks the codes by adding, to its regular direct sales offers :

- proposal for renting
- supported by an on-site maintenance service, both original and inspiring.

## More than 200 models available

The rental is valid on all models in our catalog.

## A new stage in the history of Marie's Corner

Marie's Corner steers a course for innovation and enlarges its tailor-made offer with renting in order to meet the needs of its professional customers.

### Renting generation

- Because change equals seduction.
- Because the trend is set for flexibility.
- Because successful companies no longer buy, they rent !

Marie's Corner is positioning itself both as new ally of its traditional clients, and at the same time as a performer of new places for common life, meeting places for travellers, restaurant and lodging concepts.

# Craftsmanship on a pedestal

We are craftsmen & proud of it!

Since 25 years, the high-class DNA of the brand has imposed itself in style.

On one hand, the models with an iconic value; on the other hand the armchairs, the couches, footstools, tables or chairs with an exclusive destination.

Apprizing the craftsmanship at Marie's Corner is no wishful thinking. It is even the essence of the brand : **each model is unique, made by hand, on demand, and by piece by the craftsmen.** These guardians of tradition only work with noble materials and exclusive fabrics, made from natural materials.

Marie's Corner privileges the European tradition with a factory of more than 4.000 m<sup>2</sup>, located in Zaragoza, in Spain. This production tool can rely on a team of 30 master-decorators who make up to 12.000 pieces entirely by hand every year.

The factory is completely integrated in the entity of Marie's Corner and manages the full process, from the development of the cross-beams to the expedition of the piece.

Today, a web platform allows the customer to follow the evolution of his order in real-time.

**Creation in  
Waver** (Belgium)

**Creation of the  
wooden cross-beams**  
in Zaragoza (Spain)  
in our artisan factory

**Choice of padding,**  
mousse, elasticity,  
springs

**Garnishing**  
**1 model = 1 craftsman**  
Team of 30 master-  
decorators

**Quality control  
and delivery on-site**

# Exclusive and Tailor-made

## Welcome in tomorrow's world

Something to get used to. Something to improve the experience. **Something to offer a framework that represents who we are.** Something to share our moods. And to change them.

## Accessibility and versatility

By granting a genuine versatility on the budgetary management, **the possibility to rent makes it possible to say YES to all desires** of the interior architects, the designers and decorators, even at the end of the building project.

## Simple rent to pay

It's a way to stay free, to bring to life interiors that are even more personalised, to communicate with emotions, to keep one step ahead.

When you do no longer need to worry about the state of wear and tear of your furniture, the experience becomes even more harmonious.

# On-site maintenance

Permanent assistance guarantee,  
quality at the highest level

## Advantages

By offering a permanent assistance guarantee, the renting keeps the quality of the delivered furniture at the highest level. In case of primary wear and tear, it will be repaired and restored on site back into new condition.

## The maintenance covers all needs :

- stain removal, degreasing
- restoration
- new filling
- possible replacement after a few years
